Gateway Geriatric Education Center offers ***Caregiver Support Group Facilitator Training***

The Gateway Geriatric Education Center has developed training for those interested in facilitating Caregiver Support Groups to assist geriatric health professionals and students in optimizing the caregiver experience for older adults.

Caregiver support group facilitator training is an evidence-based approach for persons who are caring for people with a dementia or other chronic diagnosis. The manual provides information and activities for 7 sessions that have been created from caregiver requests for assistance as they provide daily care to a friend or family member.
