**SLUCare**<sup>®</sup>  
The Physicians of Saint Louis University

Department of Internal Medicine  
Division of Geriatric Medicine

## DO YOU OR DOES SOMEONE YOU KNOW HAVE:

- Trouble getting to doctor office appointments due to impaired mobility or transportation problems?
- Terminal Illness?
- Special problems such as:
  - advanced bedsores or other multiple wounds?
  - Alzheimer's dementia or advanced Parkinson's disease?
  - frequent falls?
  - tube feeding?
  - urinary incontinence?

If the answer to any of these questions is "yes", you may qualify for our home care program.

## SLUCARE HOME CARE PROGRAM

Our physicians typically see home visit patients once every three months but may visit more or less often, depending on patient needs.

Our physicians will communicate with your primary care physician via letter or telephone or we can serve as your primary care physician. Most health insurances have some restrictions about physician home visits. We would be more than happy to discuss this with you.

For more information or to discuss how SLUCare's Home Care Program may be of benefit, please call (314) 977-8462 or visit us on the web at [www.slucare.edu](http://www.slucare.edu)

## THE HOME CARE PROGRAM TEAM

Chantri Trinh, MD is co-medical director of the Home Care Program and is board certified in internal medicine with a subspeciality in geriatric medicine. Dr. Trinh completed her fellowship at Saint Louis University School of Medicine and has been on staff since 2004. She teaches medical students and residents and is the medical director of a hospice agency.

Joseph Flaherty, MD is the co-medical director of the Home Care Program and is board certified in internal medicine with a subspeciality in geriatric medicine. Dr. Flaherty completed his fellowship at Saint Louis University School of Medicine and has been on staff since 1995. He teaches medical students and residents and is the medical director of a hospice agency.
